“ Dr. Bose’s presentation received a rousing standing ovation and rave reviews!”

Maureen Freda Peterson, Chief Professional Affairs Officer, AOTA

“ The way Dr. Bose started out the presentation really caught our attention! He used foam grenades, a smoke machine, videos and even shocked a mannequin which kept us engaged and entertained. We learned a lot and his lessons were great!”

Melissa Hopkins, Executive Producer, Washington Times

“ Dr. Bose is a very talented and gifted speaker. His points of discussion are ones that are very necessary in today's age and society.”

John Alvarez, Chief, Odessa Fire & Rescue

Lisa Brosky, Director of Communications, Tidewell Foundation

“ The way that he was able to engage with the audience and bring his real world experiences to the room was outstanding. The other thing he does is he takes information and really simplifies it down so that the audience can really understand and take away something from his talk. You get that firsthand experience right then and there combined with what’s actually happening on the inside of your body. It’s unlike anything I’ve ever seen.”
